6. OVERSEAS TRAINED TEACHERS

Applicants with overseas qualifications are assessed against the Australian Qualifications Framework.

6.1 Requirement for teachers to be proficient in the English language

Applicants must have sufficient ability in the English language to meet the standard required for teaching in an English language environment. Applicants must:

- have been born/raised and undertaken tertiary education in English in Australia, New Zealand, the United Kingdom, Ireland, Canada or the United States.

OR

- from the commencement of second semester 2009, provide results from the Academic version of the International English Language Testing System (IELTS) test showing they have achieved a minimum score of 7.5 in all areas: reading, writing, speaking and listening. The successful results may be achieved over several attempts at the IELTS test.

OR

An applicant who is required to complete an IELTS test may be employed as a casual school teacher at the discretion of the delegate on the condition that IELTS requirements are successfully completed in a specified period.
If there is any doubt about an applicant’s proficiency in the English language, the delegate may request completion of an IELTS test.

In addition to the IELTS Academic version the Directorate may also recognise the Professional English Assessment for Teachers (PEAT). A score of A in each of the four categories is required to meet the Directorate’s Proficiency in the English Language standard.

The Directorate reserves the right to request an applicant undergo the IELTS Academic version, although the applicant may have achieved a successful PEAT test result.

7 SCHOOL TEACHER QUALIFICATIONS ASSESSMENT

The Qualifications Coordinators, under the direction of the Manager, Workforce Management, assess the qualifications. If a decision cannot be made the application under consideration is submitted to the Qualifications Committee (see 7.1 below).

Before a school teacher can work for the Directorate the applicant’s qualifications must meet the school teacher qualifications requirements. The assessment is made in order to determine if the applicant meets the minimum school teacher qualifications and to:

- establish whether the applicant is qualified to be appointed as a teacher
- establish whether the specific qualifications requirements for a position are met (eg. counsellor/psychologist, teacher librarian, ESL teacher).

The assessment of an applicant’s qualifications occurs:

- before an offer of permanent appointment is made to a school teacher who is not already registered for casual employment
- before a contract is offered to a school teacher who is not already registered for casual employment
- when a school teacher applies for registration as a casual school teacher
- when a school teacher applies for recognition of additional qualifications
- when a school teacher requests a review of teaching or additional qualifications.

Original documents or certified copies of the applicant’s final academic transcripts are required for assessment of qualifications.

Assessments are also undertaken when it must be established that an applicant meets the Directorate’s school teacher qualification requirements:

- for any substantive promotion position ensuring that the applicant meets the requirements of section 4.1.2
- for a school counsellor (school psychologist) position
- for a school teacher librarian position
- for an ESL position.
